

# SCP 502 : Critical Thinking: Research Into Practice

Critical Thinking: Research into Practice is concerned with providing school counseling students with the opportunity to increase their understanding of research methods, statistical analysis, needs assessment, and school counseling program evaluation. School counseling students will utilize the ASCA model as a means to conceptualize evaluation of school counseling programs, needs assessments, results reports, and accountability issues related to managing a school counseling program. School counseling students will develop critical thinking skills for reading research and drawing conclusions about its implications for school counseling.
