

# OTH 705 : Doctoral Capstone

The Doctoral Capstone is the culminating experience of the Entry-level Doctorate in Occupational Therapy (OTD). The experiential component is an individually designed, in-depth, student experience in a practice setting in one or more of the following areas of study: clinical practice skills, research skills, administration, leadership, program and policy development, advocacy, education or theory development. Students implement an individualized learning and reflection plan with specific objectives designed to meet set goals. The experiential component crafts diverse meaningful opportunities that impact our local community. Students present their research experiences at the Graduate School Research Symposium. OTD students only.
